## USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory.

Please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You

can get your call through faster by referring to this directory and calling by number.

Your cooperation is appreciated.

## You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

## About Your Telephone Number

Because of the growth of the city, it has been necessary to change the telephone numbers of some subscribers. It may, likewise, be necessary to change some numbers in the future.

When we can't say to you, "We'll never have to change your telephone number," we can't say to you, "We'll never have to change them and won't do it unless

## Why Listing?

As can be listed in the telephone

It is convenient to list not only alternate call numbers and customers' calls.

For better service for you,

This is an  
**EMERGENCY**

Illinois Bell operators get many urgent appeals for aid. People in distress throughout the company's territory call them for help hundreds of times a week.

When trouble strikes, many people turn automatically to the telephone operator—their only link with the outside. Through training and instinct, the operator acts fast in emergencies. Many times her speed and initiative have meant the difference between life and death.

It's comforting to know she's always within arm's reach when you need her—not only with operator service, but with dial service, too. Her reassuring voice will answer whenever you dial "operator."

## TO REPORT A FIRE

IN GARY .....Dial 5-5511

OR—Dial your operator and say . . .

"I want to report a fire in (name of town)."

If you must leave the telephone before the desired telephone answers—FIRST TELL the OPERATOR where help is required.

## FEDERAL BUREAU OF INVESTIGATION

For the telephone number of the nearest F.B.I. office .....Dial 113

## OTHER EMERGENCY NUMBERS

You may wish to keep a list on this page of other numbers you may need in case of emergency.

## For Information and Service Calls...

BUSINESS OFFICE—Application for service, information regarding bills, etc.,  
416 West 5th Ave., Gary .....Dial 9981

INFORMATION—For numbers not in Directory .....Dial 113

REPAIR SERVICE—To report a telephone "Out-of-order" .....Dial 114

For ASSISTANCE in reaching a number .....Dial "Operator"

## AT YOUR SERVICE

Your telephone account is handled by a young lady in our Service Representative, whose job is to make sure your service is satisfactory at all times. Whether you're moving your new location, or have a question about your bill, or about your service, she'll be glad to help you. If you're moving or discontinuing service, let us know as far as possible in advance. Dial 110

If you prefer to transact business in person, we shall be glad to see you at the Business Office. Hours are from 8 A.M. to 5 P.M. Mondays through Fridays. Dial 110

For your convenience, an after hours deposit box is available for paying bills when the office is closed.

# CALLING AN

# OUT-OF-TOWN PHONE?

## Here's How To Save Time and Money

You'll save time from the start if you give your out-of-town calls to the right operator. By checking the list on the next page you can be sure of placing your call correctly. And you'll find some time and money-saving tips on placing long distance calls on this page.

### 3 Ways to Save Money on Long Distance Calls

1. **CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But...
2. **CALL PERSON-TO-PERSON** if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person.
3. **PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS** or *any time* Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

*On calls within Indiana* the reduced rates apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 60c or over. Reduced rates on calls to telephones outside of Indiana apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 55c or over.

### Tips for Saving Time

You'll get faster service if you give the details of your call to the Long Distance operator like this:

#### FIRST

Give her the name of the town and state you are calling. Then the telephone number, if you know it; **EXAMPLE:** "Detroit, Michigan—Woodward 5-3456". If it's a person-to-person call, also give the operator the name of the person you want.

#### SECOND

If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

#### THEN

Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

## SPECIAL CALLS YOU CAN MAKE

**CALLS**—You may talk by telephone to any of the 90 countries, territories and dominions of the world. Dial "110" and place your call in any.

**SHORE CALLS**—Certain ships in harbor or in the Great Lakes or high seas may be telephoned. Dial "110" and place your call in any.

**U.S.**—If you place a call "Collect", and it is on a "Collect" basis by the person you are calling, instead of you. To place a "Collect"

The charges are the same as for other out-of-town calls except there is an additional charge on "station" calls when the regular rate is 25c or less, (not including federal tax).

**CALLS TO VEHICLES**—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a vehicle, dial "110", and tell the operator you wish to place a mobile telephone call.

# OUT-OF-TOWN CALLS are Easy to Make

For calls to nearby places

## HOW TO DIAL MERRILLVILLE NUMBERS

(Within local calling area—no additional charge)

Dial the code "49" followed by the FIVE DIGITS of the Merrillville Number

Dial "Operator"—last opening on dial—to call these points—

(Station-to-station only):

| For calls to         | Rates  | For calls to    | Rates  |
|----------------------|--------|-----------------|--------|
| Bellwood             |        | Homewood        | \$0.20 |
| Linden 4             | \$0.35 | Indiana Harbor  | .10    |

# How to Use Your DIAL TELEPHONE

## TO DIAL A CALL

1. Look in the telephone directory for the correct number.
2. Listen for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin box telephone, see next column.)
3. To Dial any figure, place your finger firmly in the opening for the particular figure. Pull the dial around until your finger strikes the metal finger stop. Then, release the dial and allow it to return to rest without interference.

For information on out-of-town calls,  
see pages 2 to 4.

## If You Dial in Error

In case your finger slips while dialing

Or if you've dialed a wrong digit—

Replace the receiver . . .

Wait a few seconds . . .

Lift the receiver to your ear and when you hear the hum of "dial tone,"

Dial the complete number.

## At the End of a Call

The dial equipment is restored to normal, ready for another call, only when the calling party hangs up the receiver. So, if you wish to place a second call, hang up for a few seconds and then listen for the "dial tone."

## Answering Incoming Calls

Answer all calls promptly.

If you hear the "dial tone" when you answer a call, you'll know there is no one on your line—the connection that was established with your line has been released.

## In An Emergency

If for any reason you cannot see the dial, locate the first opening just below the finger stop, pull the dial all the way around in the usual way, and let it return. Your operator will answer.

## After You've Dialed

Most people try to answer the telephone immediately . . . but it can't always be done. Wait a full minute, or about 10 rings, before you decide "nobody's home." This way you can often avoid making a second call.

## Telephone Signals You Should Know

**THE "RINGING SIGNAL"**—Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing signal" which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

**"THE BUSY SIGNAL"**—By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly, after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy signal," be sure to replace the receiver before trying your call again—or placing another call.

**THE "NO-SUCH-NUMBER-SIGNAL"**—When you hear an interrupted "buzz buzz — buzz buzz" sound, which indicates that you have dialed a nonexistent number, replace the receiver, and verify the number by looking in your telephone directory.

**THE "BEEP" TONE**—If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

*Use of a recorder without this signal is unlawful.*

## FROM COIN BOX TELEPHONES

### Local Calls

1. Deposit one dime or two nickels (One nickel won't work).
2. Listen for dial tone
3. Dial number as listed in this directory

**For Assistance** . . . . . Dial "Operator"

**Out-of-Town calls** . . . . . See Pages 2 to 4

**Long Distance** . . . . . Dial 110

If you get a busy signal or no one answers, just hang up. You will not be charged. Your money will come back.

## For Your Protection . . . Our Employees Carry This

Naturally, our customers want to take every precaution to prevent unauthorized persons from entering their homes or places of business.

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs which they will gladly show you. If you have the slightest doubt about anyone who calls "from the Telephone Company," ask to see his credentials.

| EXPIRATION DATE   | March 1947          |

Just as much as the people next door or across the street, the folks on your party line telephone are neighbors. Maybe as the saying goes, you wouldn't know them if you fell over them, but chances are they are folks with a family to raise—a household to manage—calls to make—very much like you. As a matter of fact, you are some one's telephone neighbor.

Well, the best party-line service for all depends on courteous, cooperative use of the line by all the party-line neighbors. So—here's how you can do your part.

## How to be a GOOD TELEPHONE NEIGHBOR in 6 Easy Lessons

### Answer Promptly

This will insure receiving all calls intended for you and will prevent possible annoyance to another family on the line.

### Take a Breather

A "breathing spell" between calls gives your neighbor a chance at the line. It also permits incoming calls to come through.

### Listen Before Using

Make certain that the line is free before attempting to call a number. (In the case of dial service, listen for the Dial Tone. If you hear successive clicks, it means that someone else is dialing a number. Wait until they stop; then explain to the party that you have interfered with his dialing. And hang up.)

### Replace Receiver Properly

If you don't, the line is just as "busy" as if someone were talking on it. Incoming calls are blocked; and eventually no one can reach the operator. And when you find the line already in use, the neighborly way is to hang up gently.

### Tell the Children How

Teach 'em young how to use the telephone—to be considerate of others on the party line. . . . not to talk unnecessarily long.

### Give Way in Emergencies

If your neighbor says the line is needed for an emergency, cut the call short and give the right-of-way. You might otherwise always regret it.

## To call ANOTHER PARTY on your line

If you want to know who else is on your line, dial 114 for "Repair Service".

### On Two and Four-Party Lines

When calling another telephone on their line, two and four-party line customers dial a special code number to ring the desired telephone—not the number as listed in the directory for that party.

If you are a *two-party line subscriber*, use the code 1191 to call another party on your line. If your number begins with the figure 4, however, the code is 1-1912.

If you are a *four-party line subscriber*, dial 114 ("Repair Service") and give your telephone number and the name of the party you wish to call. "Repair Service" will then tell you the proper code number to dial. Make a note of that code number for future use.

### How to Place Your Call

1. Dial the code and hang up your receiver to allow the other party's bell to ring.  
Your bell will also ring at intervals indicating that the other telephone is ringing.
2. When the ringing stops, you will know the other party has answered.
3. Remove your receiver. Proceed with conversation.  
If your party does not answer within a reasonable period, remove your receiver for a few seconds in order to clear the line. Then replace the receiver.

### Telephone Films, Demonstrations and Talks

Interesting films, demonstrations and talks about telephone service are available to public groups without charge.

These portray the story of modern communications. They explain the scientific magic of a telephone call, whether it be across the street or around the world. They are entertaining as well as informative. Pamphlets listing current films are available at the Telephone Business Office. For further information, dial 9981.

### Tips For the Best in Dial Telephone Service

For faster service—refer to your directory, using the number listed.

Do not turn the dial while talking. It may break the connection.

Always replace the receiver for a few seconds between calls.

If you encounter any difficulty, dial "Operator" and explain the difficulty to her . . . She will be glad to help you.

## "LAID OFF..."

A carelessly replaced telephone can't go to work for you! You've closed the door to your friends and relatives without knowing it, for no calls can come through

while your telephone is off the hook.

It's a good idea to be sure your telephone is replaced properly after a call.

## GIVE THE PERSON YOU CALL.....

### time to answer

Time passes slowly when you are waiting at the telephone for some one to answer your call. A few seconds may seem like a couple of minutes.

When you make a telephone call, give the person you are calling plenty of time to answer. He may be far from the telephone or may not have heard it ring the first time. He may have been delayed in answering.

By waiting a short time you may save yourself the trouble of calling again.

## ATTRACTIVE PERSONAL DIRECTORIES

A copy of a personal telephone directory is yours for the asking. The directory is handy for listing your frequently called numbers—your friends', business associates', numbers for places where you shop, and so on. For a copy of the directory, just call your Service Representative at the Business Office.

This small, personal directory will save you time in calling. Be sure, however, to keep your personal list of numbers up-to-date by checking it with each new directory issue.

## CONCEALED TELEPHONE WIRING

Telephone wiring can be as modern and inconspicuous as plumbing and electrical work if provisions for it are made before your home is built. Concealed wiring through the use of rigid, flexible or thinwall conduit installed by your contractor during construction of the building, enables you to have built-in telephone outlets—neat little plates similar in design to electrical outlets—wherever you desire. Your telephone company will be glad to consult with you without cost or obligation and make recommendations for built-in conduit. Just call our business office and ask for "Architects' and Builders' Service."

---

Before calling "Information" for that number—

# LOOK in the telephone BOOK

Looking in the book for that number is faster than calling  
"Information". You just look it up, then call it.

You save the time it takes to make that extra call and relay  
all the facts. Especially since more than half of the calls to  
"Information" are for numbers listed correctly in the following  
pages of this directory.
